

## New England Biolabs Certificate of Analysis

Product Name: Amylose Magnetic Beads  
 Catalog Number: E8035S  
 Concentration: 10 mg/ml  
 Lot Number: 10044931  
 Expiration Date: 12/2021  
 Storage Temperature: 4°C  
 Storage Conditions: 20% Ethanol  
 Specification Version: PS-E8035S v1.0

Amylose Magnetic Beads Component List			
NEB Part Number	Component Description	Lot Number	Individual QC Result
E8035SVIAL	Amylose Magnetic Beads	10030585	Pass

Assay Name/Specification	Lot # 10044931
<p><b>Binding Capacity (Magnetic Beads)</b>            Amylose Magnetic Beads ( 1 mg ) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a MBP5*-paramyosinΔSal fusion protein for 2 hours at 25°C, then washed and the MBP5*-paramyosinΔSal fusion protein eluted. Binding capacity was determined to be &gt;10 µg of target protein per mg of beads.</p>	Pass
<p><b>Functional Binding Assay (Qualitative)</b>            Amylose Magnetic Beads ( 1 mg ) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a MBP5*-paramyosinΔSal fusion protein for 2 hours at 25°C, then washed, eluted and evaluated by SDS-PAGE to confirm low non-specific binding of extract proteins and high isolation of target.</p>	Pass

This product has been tested and shown to be in compliance with all specifications.
