

New England Biolabs Certificate of Analysis

Product Name: *Oligo (dT)25-Cellulose*
 Catalog Number: *S1408S*
 Lot Number: *10050896*
 Expiration Date: *08/2021*
 Storage Temperature: *4°C*
 Storage Conditions: *0.02% NaN₃*
 Specification Version: *PS-S1408S v1.0*

Oligo (dT)25-Cellulose Component List			
NEB Part Number	Component Description	Lot Number	Individual QC Result
S1408SVIAL	Oligo (dT) ₂₅ Cellulose Beads	10050895	Pass

Assay Name/Specification	Lot # 10050896
Binding Capacity (Poly rA) Oligo (dT) ₂₅ Cellulose Beads (0.15 ml) were equilibrated and incubated with 0.5 ml of PolyA substrate solution for 5 minutes at 25°C, then washed and the PolyA eluted. Binding capacity was determined to be >400 OD per gram of cellulose.	Pass

This product has been tested and shown to be in compliance with all specifications.
