

New England Biolabs Certificate of Analysis

Product Name: NEBExpress[®] Ni Spin Columns
 Catalog Number: S1427S
 Packaging Lot Number: 10065879
 Expiration Date: 12/2021
 Storage Temperature: 4°C
 Storage Conditions: 20% Ethanol
 Specification Version: PS-S1427S/L v1.0

NEBExpress [®] Ni Spin Columns Component List			
NEB Part Number	Component Description	Lot Number	Individual QC Result
S1427SVIAL	NEBExpress [®] Ni Spin Column	10063424	Pass
B1077SVIAL	2M Imidazole	10055325	Pass
B1076SVIAL	2X IMAC Buffer	10055324	Pass

Assay Name/Specification	Lot # 10065879
<p>Functional Binding Assay (Qualitative) NEBExpress[™] Ni Spin Columns (100 µl bed volume) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a His6-GluRS fusion protein for 15 minutes at 25°C, then washed, eluted and evaluated by SDS-PAGE to confirm low non-specific binding of extract proteins and high isolation of target.</p>	Pass
<p>Binding Capacity (Resin) NEBExpress[™] Ni Spin Columns (100 µl bed volume) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a His6-GluRS fusion protein for 15 minutes at 25°C, then washed and the His6-GluRS fusion protein eluted. Binding capacity was determined to be ≥1.0 mg of target protein per column.</p>	Pass

This product has been tested and shown to be in compliance with all specifications.
