## New England Biolabs Certificate of Analysis

| Product Name:          | Monarch® Protein Separation Solution |
|------------------------|--------------------------------------|
| Catalog Number:        | T3062L                               |
| Packaging Lot Number:  | 10119976                             |
| Expiration Date:       | 01/2024                              |
| Storage Temperature:   | 25°C                                 |
| Specification Version: | PS-T3062L v1.0                       |
|                        |                                      |

| Monarch® Protein Separation Solution Component List |                                      |            |                      |  |
|---|--------------------------------------|------------|----------------------|--|
| NEB Part Number                                     | Component Description                | Lot Number | Individual QC Result |  |
| T3062-1   | Monarch® Protein Separation Solution | 10135462   | Pass                 |  |

| Assay Name/Specification   | Lot # 10119976 |
|--|----------------|
| Functional Testing (Genomic DNA Yield and Integrity Analysis)                        | Pass           |
| Genomic DNA is purified from 8 samples of NEB 10-beta Competent E. coli using the    |                |
| High Molecular Weight DNA Extraction from Bacteria protocol. Each set of reagents is |                |
| functionally tested to ensure successful isolation of gDNA from 1 x 10e9 cells.      |                |
| Yield of genomic DNA is ≥6 µg in ≥80% of the samples. OD 260/280 and 260/230 are     |                |
| ≥1.75 in ≥80% of the samples, and DIN values are ≥9 in ≥80% of the samples. In ≥ 80% |                |
| of samples, ≥ 75% of the DNA is 50 kb in size or greater.                            |                |

This product has been tested and shown to be in compliance with all specifications.
