

# Monarch® Scholarship 2025

## Awarding Trailblazers in Nucleic Acid Purification Research – Apply Now for the 2025 Monarch Scholarship!

We are excited to announce the 2025 Monarch® Nucleic Acid Purification Scholarship! Monarch nucleic acid purification kits from New England Biolabs® have been meticulously designed to deliver exceptional performance and value, all with industry-leading sustainability. It is our mission to clean up the world of nucleic acid purification one prep at a time!

This scholarship recognizes individuals who exemplify the core tenets of Monarch – delivering research excellence, caring for our planet, and supporting your community.

Learn more about our Monarch DNA & RNA Purification portfolio at [www.NEBmonarch.com](http://www.NEBmonarch.com) and then tell us about how you're striving to make an impact like Monarch!

### Scholarship Details:

Three \$2,025 scholarships will be awarded – use the scholarship for traveling to a conference, funding your research, supporting tuition costs, and more.

Winners will have the option to donate the scholarship to a charity.

Winners will be recognized in NEB communications and on neb.com.

### How to Enter:

**1** Describe how your research project utilizes nucleic acid purification (*up to 200 words*).

**2** Explain how your research project exemplifies Monarch's core tenets: Performance, Sustainability, and Value (*up to 2,000 words*).

For more details, visit [www.neb.com/monarchscholarship](http://www.neb.com/monarchscholarship).

Deadline for applications to be submitted is May 1, 2025.

**APPLY TODAY!**
