

## New England Biolabs Certificate of Analysis

Product Name: Yeast Medium Pack  
Catalog Number: B9017S  
Packaging Lot Number: 10115981  
Expiration Date: 01/2023  
Storage Temperature: 4°C  
Specification Version: PS-B9017S v1.0

| Yeast Medium Pack Component List |                                 |            |                      |
|----------------------------------|---------------------------------|------------|----------------------|
| NEB Part Number                  | Component Description           | Lot Number | Individual QC Result |
| B9018SVIAL                       | 100X Acetamide Solution         | 10111781   | Pass                 |
| B9011SVIAL                       | Yeast Carbon Base Medium Powder | 10092880   | Pass                 |

| Assay Name/Specification   | Lot # 10115981 |
|--|----------------|
| <b>Transformation Efficiency (K. lactis)</b><br>One microgram of linearized pKLAC1-malE was used to transform one tube of K. lactis GG799 competent cells. A minimum of $1 \times 10^2$ colonies formed after incubation for 3 days at 30°C on YCB agar medium plates containing acetamide. No colonies were observed on YCB agar medium plates lacking acetamide. | Pass           |

This product has been tested and shown to be in compliance with all specifications.
