

## New England Biolabs Certificate of Analysis

Product Name: NEBExpress™ Ni Spin Columns  
 Catalog Number: S1427S  
 Lot Number: 10056764  
 Expiration Date: 09/2021  
 Storage Temperature: 4°C  
 Storage Conditions: 20% Ethanol  
 Specification Version: PS-S1427S/L v1.0

NEBExpress™ Ni Spin Columns Component List			
NEB Part Number	Component Description	Lot Number	Individual QC Result
S1427SVIAL	NEBExpress™ Ni Spin Column	10055327	Pass
B1077SVIAL	2M Imidazole	10055325	Pass
B1076SVIAL	2X IMAC Buffer	10055324	Pass

Assay Name/Specification	Lot # 10056764
<p><b>Functional Binding Assay (Qualitative)</b>            NEBExpress™ Ni Spin Columns ( 100 µl bed volume ) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a His6-GluRS fusion protein for 15 minutes at 25°C, then washed, eluted and evaluated by SDS-PAGE to confirm low non-specific binding of extract proteins and high isolation of target.</p>	Pass
<p><b>Binding Capacity (Resin)</b>            NEBExpress™ Ni Spin Columns ( 100 µl bed volume ) were equilibrated and incubated with 500 µl of crude extract from E. coli containing a plasmid that expresses a His6-GluRS fusion protein for 15 minutes at 25°C, then washed and the His6-GluRS fusion protein eluted. Binding capacity was determined to be ≥1.0 mg of target protein per column.</p>	Pass

This product has been tested and shown to be in compliance with all specifications.
